

# High accuracy, high resolution prototypes

## Loctite 3818 and Loctite 3840

General  
Purpose

Accelerate your product development process with rapid prototyping resins that deliver **high accuracy and fine surface details**

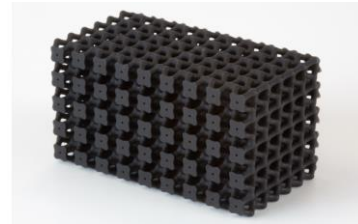

### Our Products

- LOCTITE 3D 3818 - Rigid – 5% elongation
- LOCTITE 3D 3840 – Semi Rigid – 18% elongation

### Properties

- Easy & fast to print
- Exceptional surface finish
- Great dimensional stability
- Low shrinkage
- Short exposure times during printing

### Ideal for

*Functional Prototyping*

*Jigs & Fixtures*
