

UV Curing Light Kit

UV resin curing light + solar rotary table + adapter socket

Short curing time and quick to cure model

UV Curing Light

UV Resin Curing Light

3D printer UV resin curing light is capable of quickly curing models with its soft and stable light, greatly shortening curing time. Suitable for most LCD 3D printers.

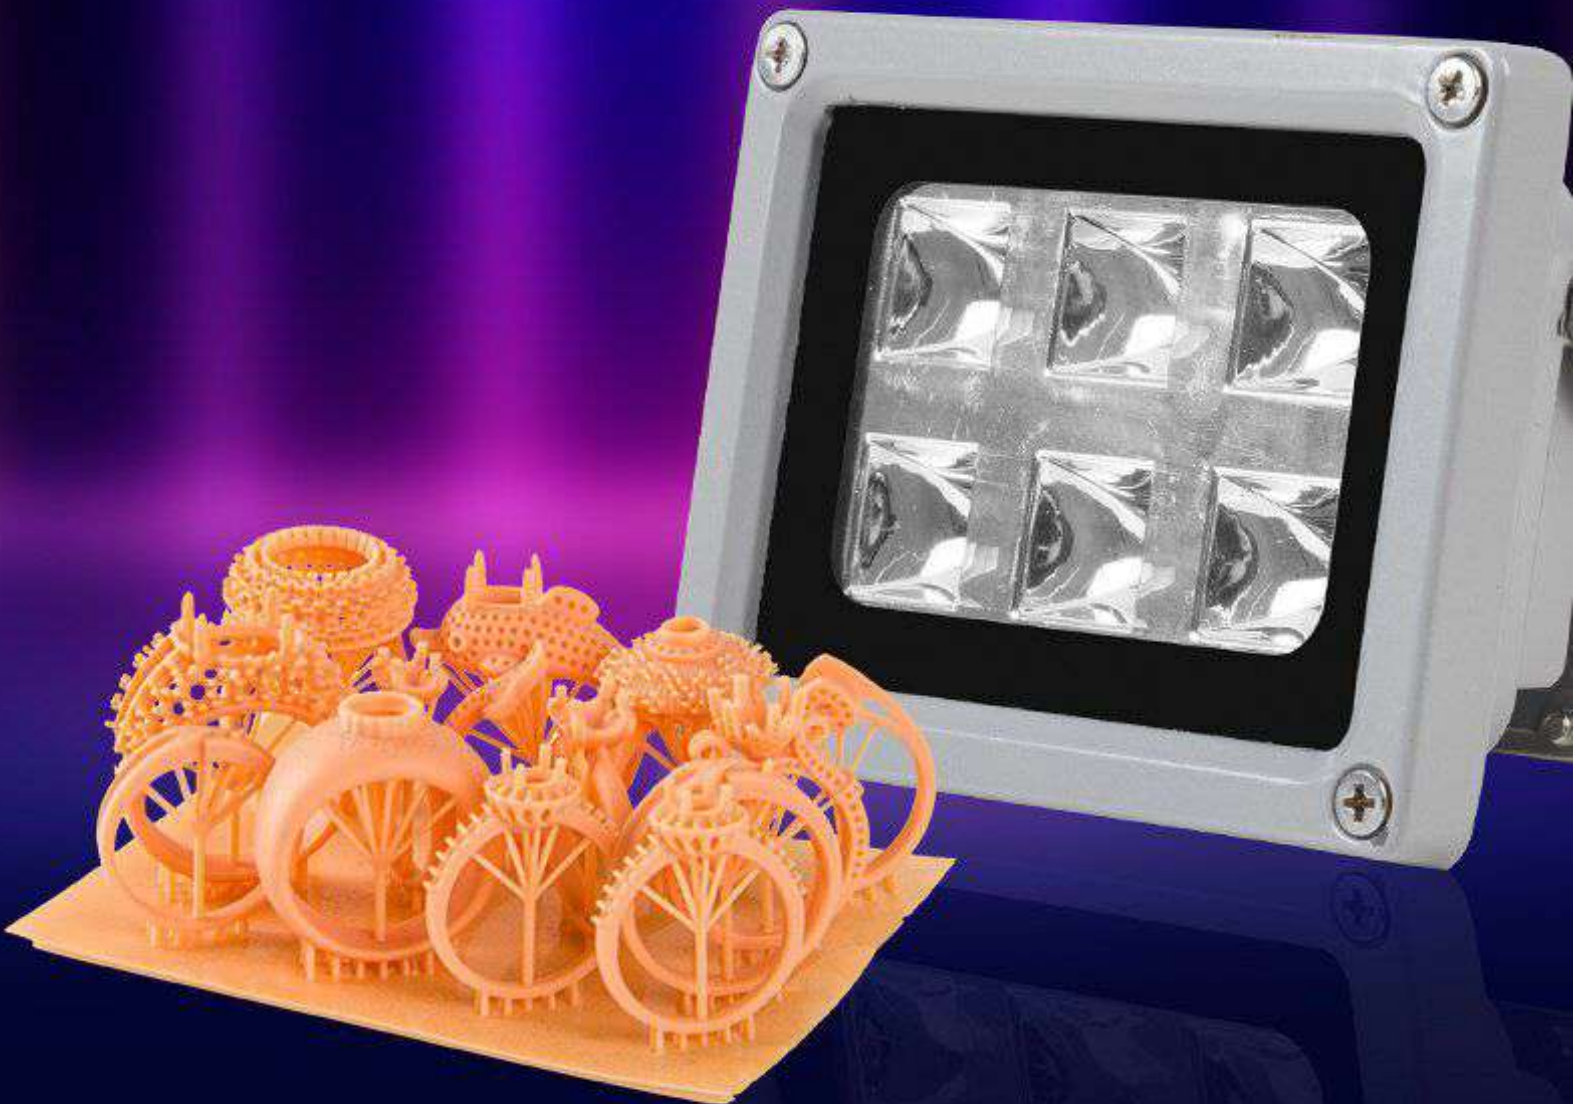

Quick to cure
the model

UV light with wavelength
of 400-405nm

High power beads

Integrated Die Casting Process

3D printer resin curing light is equipped with the high strength material, safe and environmental protection, sturdy and durable.

Tempered glass
of high hardness

Mirror lens of high
light transmittance

High strength
material

Light holder with various of holes realizes the multiple installation methods

The light holder can be used as the bottom support.

Users can adjust the angle based on specific requirements.

Control switch

Plug

Product parameters

Light wavelength	400–410nm
Input voltage	90–260V
Product size	115*85*95mm
Frequency	50–60Hz
Light type	Specular UV
Material	Aluminum + toughened glass
N.W.	800g
Service life	10000 hours
Applicable model	All the resin printer

Light Rotary Table

3.5inch transparent rotary table

Light energy | Powered by solar energy

Double-A battery powered

Solar Panel

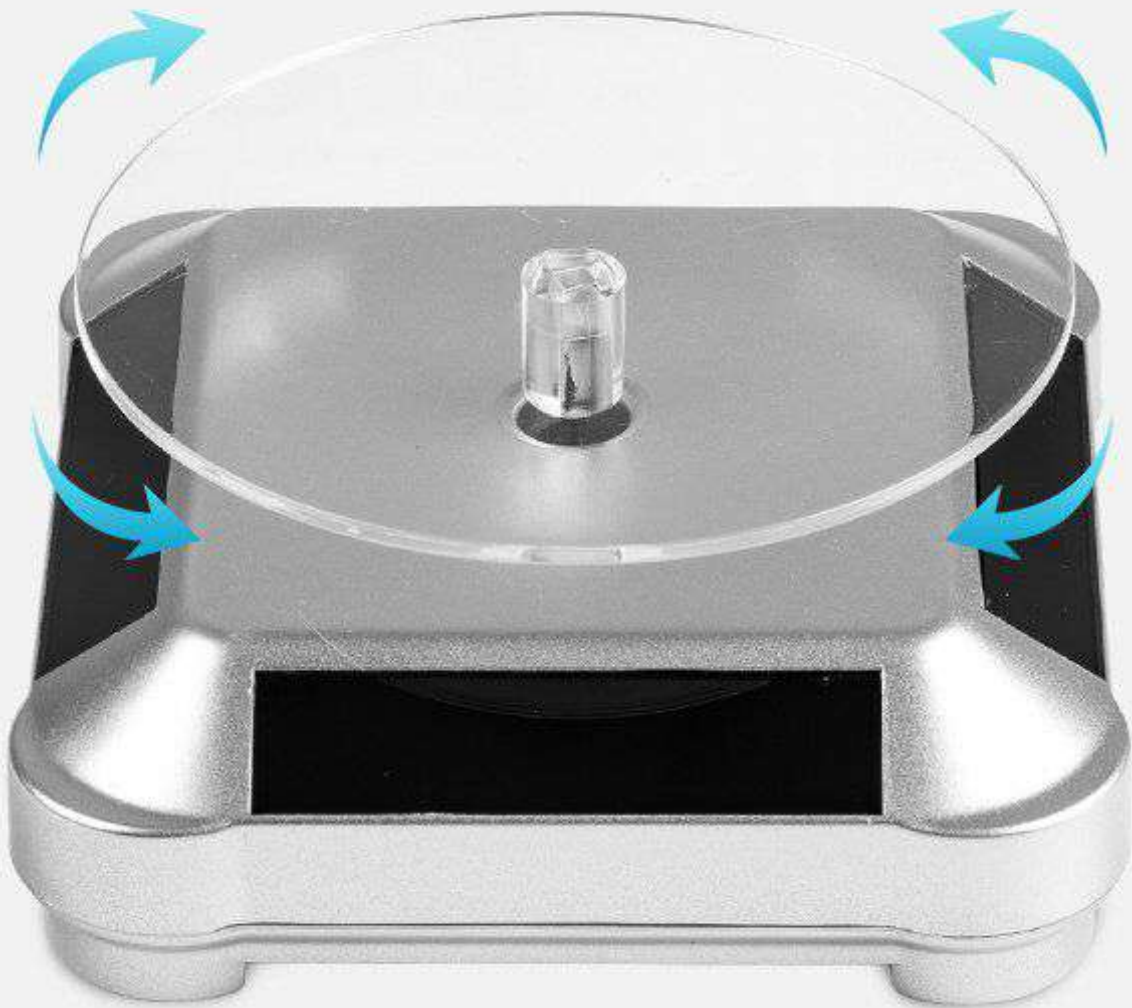

Four solar panels ensure the maximum light energy and provide continuous power for the rotary table.

Adjustable Rotation Direction

Acrylic transparent rotary table with generous appearance reduces the environment reflection on the printing model and circularly adjusts the rotating direction through braking.

Brake adjustment

Batteries Can Be Placed At the Bottom

A double-A battery can be placed at the bottom of the rotary table used as a power source when there is no light source around. High-power motor, low power consumption, long service life.

Universal Plug Adaptor

Universal plug adaptor is suitable for Europe, American and British standard.

Applicable to China, the United States, Japan, Australia, North and South America, etc.

Applicable to Europe, the Middle East, South America and the parts of Africa.

Applicable to Britain, the Middle East, Africa, and Hongkong, etc.
